1. The source of the proposed appropriation is Underground - Well No. 2
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 0.67 CFS second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet _____

3. The water to be used for Mining, Processing, and Domestic
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated: _____

(b) Stockwater, state number and kinds of animals to be watered: _____

(c) Other use (describe fully under "No. 12. Remarks" _____

(d) Power:

(1) Horsepower developed _____

(2) Point of return of water to stream _____

5. The water is to be diverted from its source at the following point: SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Sec. 17.
Describe as being within a 40-acre subdivision of public
T36N, R41E, M.D.B. & M. or at a point from which the South $\frac{1}{4}$ corner of said
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
Sec. 17 bears S.46° 54' 59" W. 699.5 feet.

6. Place of use Sec. 18 ALL and Sec. 17 ALL, T36N, R41E, M.D.B. & M.
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

7. Use will begin about January 1 and end about December 31, of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Well pumps will discharge to pipeline
State manner in which water is to be diverted, i.e. diversion structure, ditches and
which will convey water to storage tank.
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works \$100,000

10. Estimated time required to construct works..... Two Years
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use..... Three Years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

..... This application could be comingled with other applications so that total
 withdrawal will not exceed one CFS. All process water will be recycled with
 no discharge. This application is being made as a preferred use so that
 valuable minerals can be extracted and processed. 145 Million gallons annually.

APPROVAL..... OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined duty of water under this permit and Permits 45769, 45771 and 45772 shall not exceed 235.9 million gallons annually.
 (TERMS CONTINUED ON PAGE TWO.)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed..... 0.67 cubic feet per second, but not to exceed
 145.0 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before..... December 27, 1984

Proof of completion of work shall be filed before..... January 27, 1985

Application of water to beneficial use shall be made on or before..... December 27, 1987

Proof of the application of water to beneficial use shall be filed on or before..... January 27, 1988

Map in support of proof of beneficial use shall be filed on or before.....

Completion of work filed..... OCT 05 1984 IN TESTIMONY WHEREOF, I..... PETER G. MORROS.....

Proof of beneficial use filed..... 2-28-89 State Engineer of Nevada, have hereunto set my hand and the seal of

Cultural map filed..... my office, this..... 27th day of..... DECEMBER.....

Certificate No..... 13073 Issued OCT 14 1991 A.D. 19..... 82.....

(CONTINUED FROM PAGE ONE)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal, and local agencies.
